

PROFESSIONAL SUMMARY

Passionate and results-driven aspiring Software Developer looking to contribute to innovative development projects by leveraging strong programming skills, problem-solving ability, and a keen interest in building scalable and user-centric applications.

EDUCATION

- Bachelor of Technology – Artificial Intelligence & Data Science (JEPPIAAR INSTITUTE OF TECHNOLOGY – 2022-2026)
Current CGPA: 7.9
- HSC – 2022, (CARMEL HR SEC SCHOOL, NAGERCOIL – 75%)
- SSLC – 2020, (CARMEL HR SEC SCHOOL, NAGERCOIL-76%)

TECHNICAL SKILLS

- Languages: Python, Java, JavaScript, C++
- Web Technologies: HTML, CSS, React.js, Node.js
- Database: MySQL, MongoDB
- Tools: Git, VS Code, JIRA, Postman, n8n
- Data Analytics: Power BI, Tableau, MS Excel

CERTIFICATIONS

- Machine Learning A-Z: AI, Python & R + ChatGPT Prize [2024](udemy)
- Data Analyst in Python, Tableau, SQL & ChatGPT with Projects(infosys springboard)
- The Complete Web Development Training Courses | Web Design Courses(infosys springboard)

LINGUISTIC SKILL

- English (Read, Write, Speak)
- Tamil (Read, Write, speak)
- Malayalam (Speak)

PROFESSIONAL EXPERIENCE

Zeesoft Software Solutions - Software Engineer Trainee (Onsite-2026)

- Assisted in development of new and existing software projects, contributing to feature implementation and bug fixes.

AK INFO PARK-Internship (Student)

NAGERCOIL

(09/2024-10/2024)

- Gained practical experience in applying ML algorithms, handling the complete workflow from data preprocessing/cleaning (Python, Pandas) to model evaluation, feature selection, and optimization.

Data Intern, QiBR Technologies, Bangalore

(AUGUST 2025 – NOVEMBER 2025)

- Worked on data cleaning, analysis, and automation scripts in Python and SQL. Assisted in optimizing backend logic and understanding data structure handling for real-time business applications.

PROJECTS

1. LAWASSISTBOT – AI-Powered Legal Assistant

- Developed a full-stack legal assistance tool using a Python-based FastAPI backend.
- Engineered a RESTful API for features like legal document generation, advice, and case summarization using GPT.
- Built an interactive frontend and implemented support for user-provided API keys.

2. INTELLIGENT METADATA QUERY SYSTEM USING GENERATIVE AI

- Developed a tool in Python to process metadata and answer natural language queries using the Gemini AI.
- Designed a simple user interface and schema mapping logic

3. SMART SPEECH ASSISTANT FOR STAMMERERS

- Developed an AI-powered speech therapy assistant to help individuals with stammering improve fluency.
- Integrated speech recognition and NLP to detect disfluencies and provide real-time corrective feedback.
- Implemented a user-friendly interface with progress tracking and personalized speech improvement insights.
